ARTWORK REQUIREMENTS

All of our pricing is based on being supplied print ready artwork.

Digital Printed products: We require either vector artwork or a high quality JPEG.

Embroidery: Vector only. Please also note that we will not use your existing embroidery files.

Dye sublimation: Vector artwork or high quality JPEG

Laser engraving: Vector artwork only.

Pad print/offset print: Vector artwork only.

Any studio time required to improve, convert or manipulate artwork to bring it up to print quality will be charged out at a studio rate of £35.00 per hour.

Complete logo re-draws will be quoted separately.

UNDERSTANDING COLOUR MATCHING

Product note that we use various print methods to decorate different products. Each printing methods and substrate printed onto will give a slightly varied colour finish for each product. For instance a golf tee printed in red PMS 485C will be a slightly different shade to a pokerchip printed using CMYK printed digitally or a dye sublimated umbrella.

Although we do our very best to match colours across all products, it is not possible to overcome this issue altogether as different print processes make up colour in different ways

OTHER FORMATS

If vectorised artwork is not available we can work with other high resolution artwork (300dpi), formats include, .PSD, .JPG and .TIFF. However please note that there maybe additional charges for converting the artwork to a vector format.

PROOFING

Our studio will send out via email a .PDF proof illustrating how the supplied artwork will look on the product, to approve the artwork you can reply back to the studio via email. We will only continue processing your order once we have recieved an approval.

All our pricing is based on one proof being supplied FOC and one proof amend. Any additional proof amends will be charged at £5.00 each.
